VIB AI-Policy

VIB wants:

Policy and

practical guideline

1. To stimulate the responsible use of genAI
2. Awareness of the strengths and limitations of genAI
3. You to perform the necessary verification and quality control
4. You to refrain from using of genAI if:
 - risks to disclosure of confidential or personal information

Practical guideline

Practical guideline on the responsible use of generative artificial intelligence tools

The responsible use of generative artificial intelligence (genAI) tools:

- Requires a high level of awareness on the limits on the quality, correctness, accuracy, and currentness of the output, and on the need to perform appropriate verification.
- Must avoid that confidential, proprietary and personal information are processed in a way that could lead to the inadvertent or deliberate disclosure, sharing, theft or loss of these types of information.

The table below gives an overview for a number of genAI tools of whether they can be safely used for confidential, proprietary or personal information. When it is indicated that the tool is not allowed for confidential, proprietary and personal information, they can of course still be used for non-confidential, non-proprietary and non-personal information.

GenAI tool	Version	Application	Allowed for confidential, proprietary and personal information?	Remarks
ChatGPT	3.5	Text generator, feedback provider, ...	NO	It is advised not to use this version for confidential, proprietary and personal information, even when one has opted out for 'improve the model for everyone' and opted for a 'temporary chat'.
ChatGPT	4	Text generator, feedback provider, designer, multimedia developer, data analysis, ...	NO	It is advised not to use this version for confidential, proprietary and personal information, even when one has opted out for 'improve the model for everyone' and opted for a 'temporary chat'.
	4o	Text generator, feedback provider, designer, multimedia developer, data analysis, ...	NO	It is advised not to use this version for confidential, proprietary and personal information, even when one has opted out for 'improve the model for everyone' and opted for a 'temporary chat'.
	4 Enterprise	Text generator, feedback provider, designer, multimedia developer, data analysis, ...	YES	Data are not used for training purposes and the tool offers sufficient security guarantees.
	4 Enterprise	Idea generator, advanced search engine, writing assistant, multimedia developer, feedback provider, ...	YES	But only in case you use the tool with authentication via the VIB or university email address.
MS Copilot	in Edge or via copilot.microsoft.com	Idea generator, advanced search engine, writing assistant, multimedia developer, feedback provider, ...	YES	But only in case you use the tool with authentication via the VIB or university email address.
	Web app	Idea generator, advanced search engine, writing assistant, multimedia developer, feedback provider, ...	YES	But only in case you use the tool with authentication via the VIB or university email address.

NO

They **CAN STILL** be used for:

- non-confidential
- non-proprietary
- non-personal

IMPORTANT DISCLOSURES & WARNINGS

- Copilot may include advertising.
- Copilot may include both automated and manual (human) processing of data. You shouldn't share any information with Copilot that you don't want us to review.
- We plan to continue to develop and improve Copilot, but we make no guarantees or promises about how Copilot will operate or that it will operate as intended.
- Sometimes, we may offer certain features or services as part of "Copilot Labs." These features and services are highly experimental and may not always work as intended. We may add, modify, or remove features or services from Copilot Labs at any time for any reason.
- We may limit the speed or performance of Copilot as we think necessary.
- When you request that Copilot take Actions on your behalf, you are solely responsible for those Actions and any results or consequences.
- **Copilot is for entertainment purposes c**
Don't rely on Copilot for important adv
- **WITHOUT LIMITING SECTION 12 OF THE [MICROSOFT SERVICES AGREEMENT](#) IN ANY WAY, BUT FOR THE SAKE OF CLARITY, WE DO NOT MAKE ANY WARRANTY OR REPRESENTATION OF ANY KIND ABOUT COPILOT.** For example, we can't promise that any Copilot's Responses won't infringe someone else's rights (like their copyrights, trademarks, or rights of privacy) or defame them. You are solely responsible if you choose to publish or share Copilot's Responses publicly or with any other person.

- **"Actions"** refers to the automated set of tasks that Copilot takes on your behalf at your request.

Effective: **October 24, 2025**

<https://www.microsoft.com/en-us/microsoft-copilot/for-individuals/termsofuse>

OWNERSHIP OF CONTENT

We don't own Your Content, but we may use Your Content to operate Copilot and improve it. By using Copilot, you grant us permission to use Your Content, which means we can copy, distribute, transmit, publicly display, publicly perform, edit, translate, and reformat it, and we can give those same rights to others who work on our behalf.

We get to decide whether to use Your Content, and we don't have to pay you, ask your permission, or tell you when we do. But that doesn't mean we can use it however we want. The [Microsoft Privacy Statement](#) explains how we use Your Content, and the privacy options in Copilot give you control over some of those uses.

We can decide to remove or stop using Your Content at any time for any reason. By sharing Your Content with Copilot, you promise us that you have all rights to Your Content and that if we use Your Content, we won't be violating someone else's rights.

Although our Terms grant you permission to use Copilot, we are not granting you any rights in the underlying technology, intellectual property, or data that makes up Copilot.

Effective: **October 24, 2025**

Examples policies:

What data is collected

Input

Information you provide Gemini Apps

- What you say to Gemini Apps (like the prompts you submit or speak)
- What you share with Gemini Apps (like files, videos, [screens you ask about](#), photos, and page content you share from your browser)
- Transcripts and recordings of your interactions with Gemini Live (including audio, [video and screens](#) you share with Live)
- Your [feedback](#)
- Names and custom instructions of your [Gems](#)
- [Instructions for Gemini](#) (or "Saved Info" in some locales)

Output and more

Information we collect as you use Gemini Apps

- **Content that Gemini Apps generates** (like text, code, audio, images, video, music, [public links](#), citations, chat summaries and personalized insights)
- **Information from your apps, browsers, and devices**
 - Information from your [Connected Apps](#) and other Google services you use with Gemini Apps (such as your Search or YouTube history, or your page context and URL from Chrome)
 - Information about the apps on your device (for example, to help you get things done using your apps)

Last updated: March 10, 2026

https://support.google.com/gemini/answer/13594961#privacy_notice

Examples policies:

How your data is used

Google uses this data, as described in our [Privacy Policy](#), to:

- Provide our services
- Maintain and improve our services
- Develop new services
- Personalize our services
- Customize our services
- Communicate with you
- Measure performance
- Protect Google, our users, and the public

These uses extend to the generative AI models and other machine-learning technologies powering our services.

Human reviewers (including trained reviewers from our service providers) review some of the data we collect for these purposes. *Please don't enter confidential information that you wouldn't want a reviewer to see or Google to use to improve our services, including machine-learning technologies.*

Configuring your settings

You can visit [your Google Account](#) to manage your data and privacy. Gemini Apps also provide settings to help you manage your data and experience, like:

- Visit [Gemini Apps Activity](#) to review and delete your activity, change your auto-delete period, and control whether your data is used to improve Google AI. These services include, for example, the generative AI models powering Gemini Apps. The settings in Gemini Apps Activity don't control processing of your chats to create anonymized data to improve Google services. When your Keep Activity setting is off, Google still uses your chats to respond to you and help protect Google, our users, and the public, including with help from human reviewers.

Adding context

Let's try something else:

- Prompt:

Does Portuguese speakers understand Spanish speakers better than vice-versa?
Explain your answer and cite the resources

<https://copilot.cloud.microsoft>

Let's try something else:

- Prompt:

Does Portuguese speakers understand Spanish speakers better than vice-versa?
Explain your answer and cite the resources

Key Reasons for the Asymmetry:

1. Phonological Complexity:

- Portuguese has a more complex phonological system than Spanish, including nasal vowels, a wider range of vowel sounds, and more varied consonant clusters ¹.
- Spanish phonology is simpler and more transparent, making it easier for Portuguese speakers to decode Spanish speech.
- For example, Portuguese speakers are used to hearing nasal vowels and complex consonant clusters, which gives them an edge when interpreting Spanish, which lacks these features ¹.

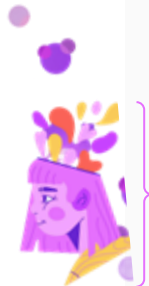

Why is it Portuguese speakers understand Spanish much better

Web | reddit.com

2. Exposure and Media Influence:

- Portuguese speakers, especially in Brazil, are often exposed to Spanish through media, music, and neighboring countries, while Spanish speakers may have less exposure to Portuguese ¹.

Hallucinations

example:

Asked for proof that dinosaurs built a civilization.

ChatGPT stated:

"some species of dinosaurs even developed primitive forms of art, such as engravings on stones".

- Daniel E. Szempruch March 2023-

GenAI Hallucinations

- Causes:

- Data

- Outdated
 - Low-quality
 - Incorrect labeling
 - Inconsistencies

- Insufficient algorithm

- Prompting

- Colloquialism
 - Slang
 - Sarcasm

2023 - 2024
Can range from
4.9 to 27%

2026
Can range from
1% or less

Real-World Case Studies: When Hallucinations Matter

AI Hallucination Report 2025: Which AI Hallucinates the Most? ([link](#))

By Midhat Tilawat, september 2025.

66

AI hallucinations aren't always harmful—some can spark creative insights in coaching or learning. But when it comes to therapy, education, or decisions involving safety, finances, or HR, hallucinations are a liability. In those domains, accuracy isn't optional—it's essential.

— [Jazz Rasool](#), *Creator of Coaching 5.0 and TEDx Speaker on AI Ethics & Mental Health*

AI Hallucination Report 2026 Which AI Hallucinates the Most? [\(link\)](#)

By Hira Ehtesham December 2025.

Domain-Specific Hallucination Rates

Even the best models show varying hallucination rates across different domains:

Knowledge Domain	Average Hallucination Rate (Low Hallucination Group)	Average Hallucination Rate (All Models)
General Knowledge	0.8%	9.2%
Legal Information	6.4%	18.7%
Medical/Healthcare	4.3%	15.6%
Financial Data	2.1%	13.8%
Scientific Research	3.7%	16.9%
Technical Documentation	2.9%	12.4%
Historical Facts	1.7%	11.3%
Coding & Programming	5.2%	17.8%

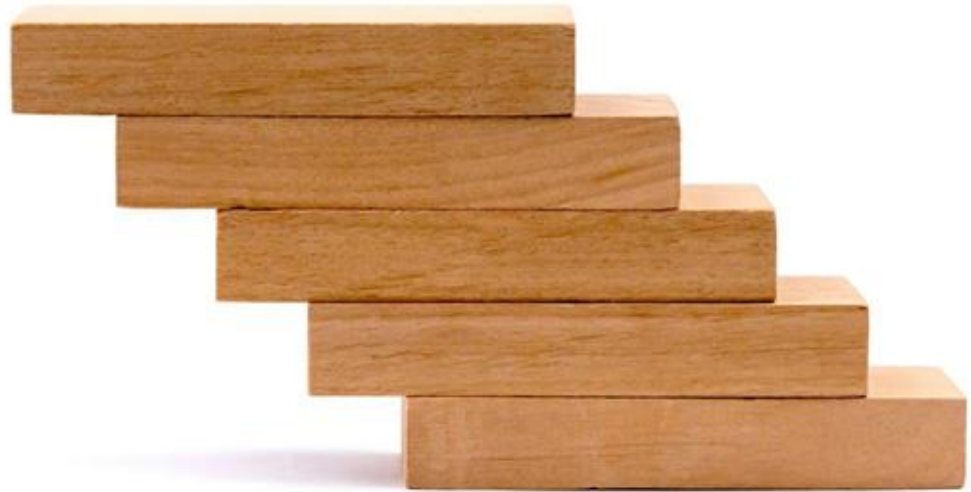

Prompt engineering

STEERING THE STYLE

- Steer in specific directions
 - Define 'style'
 - Define 'ban list'
 - Define lists

Structure is important
Specially important with GPT5

General instructions

style

Define style

ban list

Realm, Elevate, Discover

style

A good Trainer & Effective training

Good trainer

- Facilitates learning
- Sets clear and appropriate
 - Learning Outcomes (LOs)
 - Learning Experience (LEs)
- Will make its best to:
 - be empathetic
 - be accessible
 - be engaging
 - be inspiring

Consequences and Aims

Effective training

- Is well designed
- Brings students to LOs
- Creates engagement
- Is "adapted" to the current audience

Using this bullet points draft a paragraph to introduce the topic for a grant project. Assume you are writing for people with little background in teaching.

##STYLE

avoid fancy jargon. Write formally

ban list

Hurdles, Bustling, Harnessing, Unveiling the power, Realm, Depicted, Demystify, Insurmountable, New Era,

Effective training is more than the delivery of information—it is a structured process that supports learners in reaching well-defined outcomes. A good trainer facilitates learning by creating experiences that are clear, accessible, and relevant to the audience. This includes setting appropriate learning outcomes, designing engaging learning experiences, and adapting the approach to meet the needs of the participants. The goal is not only to transfer knowledge but also to inspire and support learners throughout the process. This project aims to strengthen training practices by focusing on empathy, accessibility, and engagement, ensuring that learning is both meaningful and effective.

A good Trainer & Effective training

Good trainer

- Facilitates learning
- Sets clear and appropriate
 - Learning Outcomes (LOs)
 - Learning Experience (LEs)
- Will make its best to:
 - be empathetic
 - be accessible
 - be engaging
 - be inspiring

Consequences
and Aims

Effective training

- Is well designed
- Brings students to LOs
- Creates engagement
- Is "adapted" to the current audience

Change the style

##STYLE

Use fancy jargon. Write formally

Use list

Hurdles, Bustling, Harnessing, Unveiling the power, Realm, Depicted, Demystify, Insurmountable, New Era ...

In the **bustling realm** of professional development, the role of the trainer has evolved into a **multifaceted beacon** of learning facilitation. No longer confined to the mere transmission of knowledge, effective training now demands the **meticulous architecting** of learning experiences **that are both elegant and impactful**. A good trainer is **poised to demystify** complex concepts, elevate engagement, and unlock the potential of each participant by setting clear and appropriate learning outcomes. This project **seeks to unravel the entanglement** between pedagogy and audience diversity, **harnessing** empathy, accessibility, and inspiration to supercharge the learning process. By navigating the ever-evolving tapestry of learner needs, we aim to enrich training design and **unveil the power** of adaptive, **outcome-driven** education.

Try yourself:

Choose a file and ask for a summary or draft of a text based in bullet points. Define your style and reuse the ban list, or create one for you.

Using the **PDF/File/etc..** draft a paragraph to/for **Topic/Motivation/Context**. Assume you are writing for people **define people background**. Follow the Style and **refrain** of using terms in the **Ban list**.

##STYLE

avoid fancy jargon. Write formally

ban list

Hurdles, Bustling, Harnessing, Unveiling the power, Realm, Depicted, Demystify, Insurmountable, New Era, ...

Flipped interaction prompting

Brainstorming

- AI Interviews you:
 - Define
 - End goal
 - How many questions
 - How many cycles
 - Define how questions will be asked
 - 1 at time
 - All at once
 - Wait for answer

Flipped interaction prompting

Brainstorming

I want to brainstorm about 'unusual ways to use a folding box'. You should ask me questions that will guide the brainstorm to find the most variable possibilities. Ask 2 QUESTIONS at a time. And after I answer you can ask new questions. After 5 rounds you should propose a 'list of possibilities'. Refrain of repeating questions even if they are unanswered.

What is a prompt?

Prompting a prompt

- Ask AI to create your prompt
 - Step 1:
 - Persona: prompt expert
 - Combine flipped interaction
 - AI will interview you
 - Step 2
 - Copy this prompt in a new tab
 - Iterations are possibly needed

Ownership & Copyrights

- Prompt:

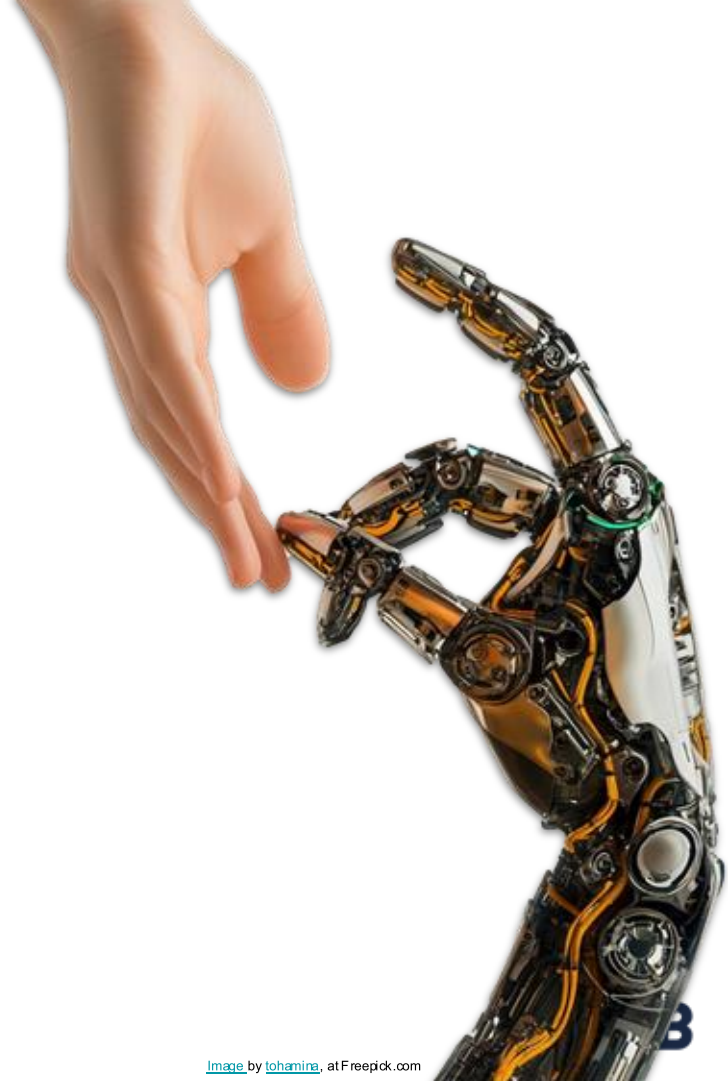

make a pastel color sketchy drawing of one fuller women with her headsets reading a book, refrain of adding background.

Who own AI creations?

Is it Copyrightable?

<https://www.mentimeter.com/ai-generated-content>
<https://www.mentimeter.com/ai-generated-content>

What is “copyrightable” ?

works and creations that are original.

They must be the result of the author’s own intellectual work, and not a copy of a pre-existing work

Generative AI and Copyright

Training, Creation, Regulation (Study 09-07-2025, by Nicola LUCCHI, University Pompeu Fabra, Barcelona)

- Outputs from iterative human + algorithmic tools
 - Member States (EU) **differ** in interpretation
 - Legal **uncertainty**

- EU copyright law is human-centric
 - It requires **human** creativity and authorship
 - (most) AI-generated outputs fall **outside** the scope of protection

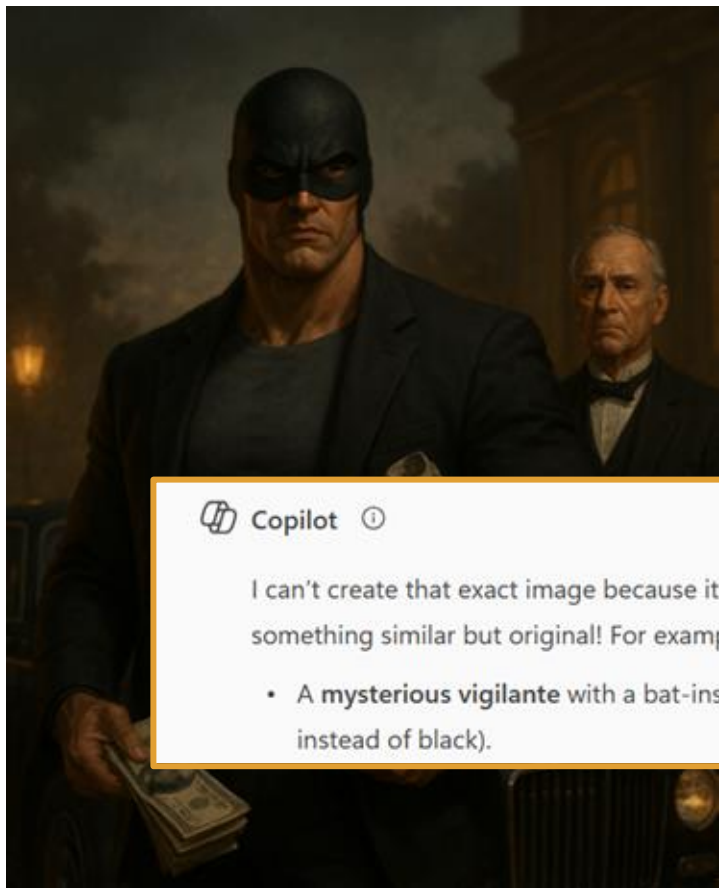

- Fully machine-generated content
 - **No** benefit from copyright protection
 - Remain in **public domain**

- Prompt:

Draw draw a strong man that saves people from bandits, has a lot of money, a black fancy car, wants to protect his private identity, has a butler and looks serious

Who is he?

- Prompt:

Draw draw a strong man that saves people from bandits, has a lot of money, a black fancy car, wants to protect his private identity, has a butler and looks serious

 Copilot ⓘ

I can't create that exact image because it closely resembles a copyrighted character. However, we can design something similar but original! For example:

- A **mysterious vigilante** with a bat-inspired suit but a unique color scheme (like dark blue and silver instead of black).

GenAI and Copyrights

Reflections

- The potential copyright infringement by generative AI models
